SILHOUETTE

ANDREWS
UNIVERSITY
ACADEMY

Dedication

It is an honor to pay tribute to one who has become so much a part of A.U.A. As a christian teacher she has done much to help her students and much to further school organizations and activities. Because of her faithfulness as a christian teacher and a sponsor to the students of A.U.A., we the yearbook staff dedicate, the 1968 "Silhouette" to Mrs. Charlene Vitrano.

Foreword

Have you ever watched a candle as it burns? For a while the flame will glow with an even flow of light. A gust of wind may cause it to flicker and struggle to keep burning, but soon it recovers and burns even brighter than it did before. As a student attempting to burn the candle of education the smooth times and the times when daily dilemmas appear, all go to make up memories. Memories that we hope our new SILHOUETTE will keep with you as the candle of your education burns low. Then as you go on to light new candles and begin new years may you remember this as one of the most rewarding.

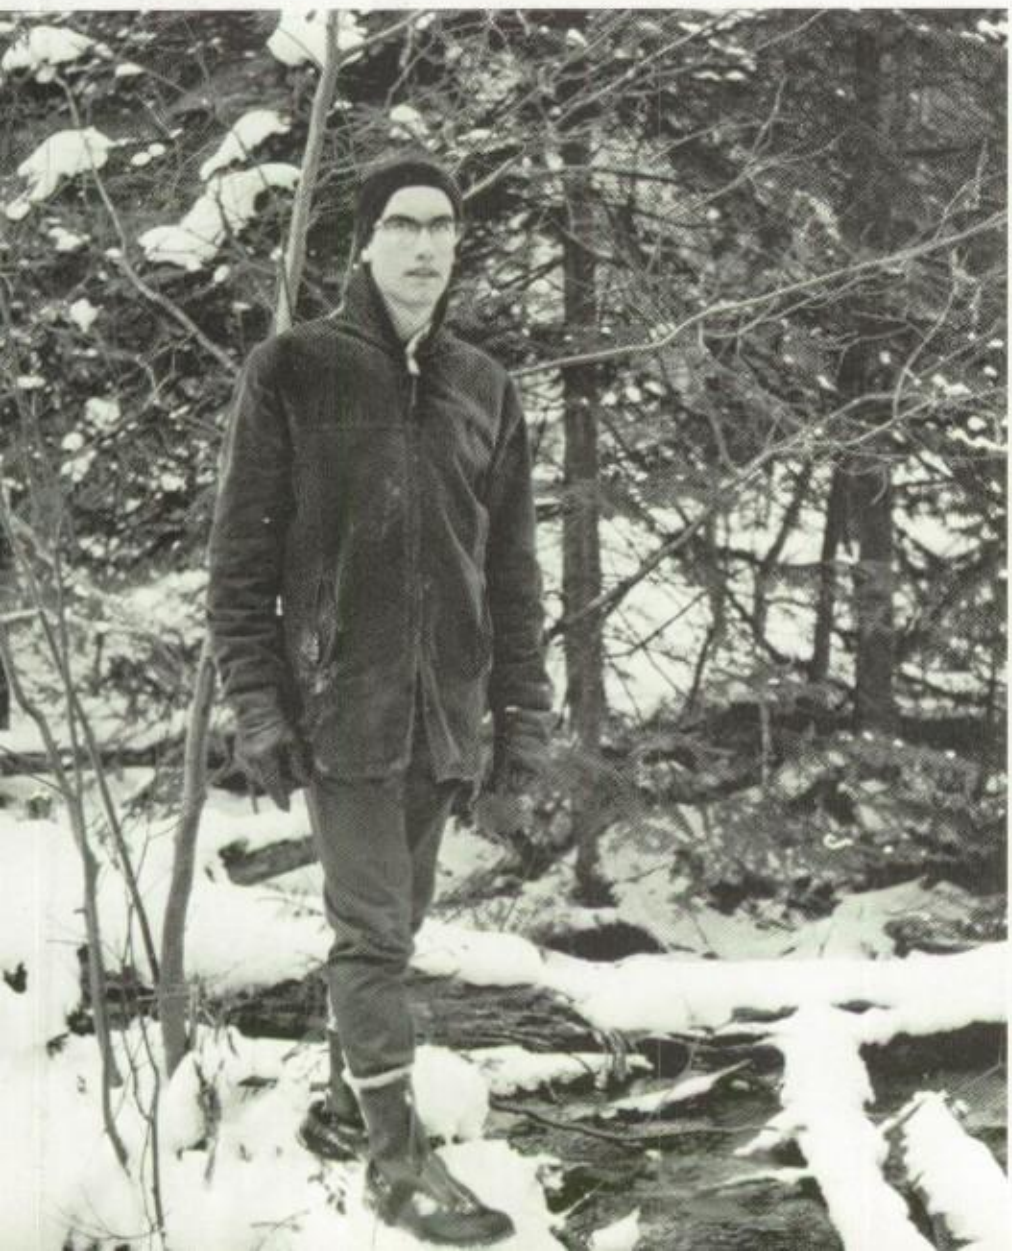
Wintertime,
A.V.A.
Wondertime

The first heavy snow —
are the trees real, or are they
softly sparkling ghosts of some
long, lost summer?

The buildings,
once classrooms and hallways,
are only balconies for some strangely
silent play.

And the audience gathers each day
as the windows watch the softly
falling, quietly, shifting spectacle.

The music begins –
bracing wind, whispering skies,
laughter –
and the tramping of boots
as the forest goes marching by.
The brook still finds a way
to ripple and dance down to –
well down to where?



Did you see a lake? I saw only a frozen plain.
The marching forest rests at the edge and the
lonesome reeds huddle along the bank to wait
for the coming of spring.

Will there be a spring?
In this time of winter fantasy
who can know?

FACULTY

Dear Students of A.U.A.:

This is the year that will go down in our memories as the year of the great bus campaign—one of the greatest sources of morale boosters we've ever seen. Our young people went to work and purchased a brand new $8000 bus in one short month. This was truly an example of team work.

During this first semester we have not had that first major discipline problem. Some have said that we are having the best year in the history of our school. What has made it such a good beginning? I believe that it is the dedication and determination to serve our school and classes that give each one an inner peace and contentment. It certainly goes without saying that he who would be the greatest is he who serves his fellowmen. Really, we get so much more fun out of living when we live for others.

Cordially your friend,

Chapter 3

THE BEGINNINGS OF GOVERNMENT IN THE UNITED STATES

The roots of American government reach deep into the past. The system of government as we know it today sprang into being as the result of some political conditions which existed in England over 300 years ago. Why was it pulled out of this area by the

Our English Heritage

French, Spanish, Dutch, Norwegian, and other European settlers to parts of what was to become the United States. But it was the English who came in the largest numbers. And it was the English who came to control the thirteen colonies that stretched for 1,200 miles along the Atlantic seaboard.

These early pioneers, who "planted the wilderness and fought all the Indians back to back and front to front," were future to the New World. But they came here in search of greater liberty

founding fathers of [illegible] the settlers of the Mayflower [illegible] Bill. We shall see [illegible] parts of these documents.

SETTLERS AT WORK

Early Americans had to live together in harmony, as they would not survive. They soon called [illegible] government in order to live. The beginning of what is now [illegible]

of which are to be found today in many [illegible] laws, church covenants, and [illegible] The years [illegible] example. And all these were well known to England long before the first English-[illegible] Jamestown.

2. *The Concept of Limited Government and Civil Liberties.* Two [illegible] brought with them to the New World [illegible] limited government and civil liberties. That is, that government is not all-powerful, that government is limited in what it may do, and especially that it is limited in the sense that each man has certain rights that government cannot injure or take away. These great principles of freedom were proclaimed in such historic English documents as the Magna Carta in 1215, the Petition of Right in 1628, and the Bill of Rights and the Act of Toleration of 1689.

3. *The Concept of Representative Government.* A third vitally important concept brought to America in English ships was that of representative government. For centuries there had been developing in England the

M.V.

Friday evenings were very rewarding after a hard week of school. Going to M. V. vesper programs set the pace for a wonderful sabbath. The programs were many and varied. Soft music, slides, stories, special music, etc. All add to the memories of pleasant M. V. meetings planned by good officers.

Left to right are the second semester M. V. officers: Chorister – Jim Wilson, pianist – Audrey Lysanchuk and Ruth Ann Plue, assistant leader – Joe Christoffel, secretary – Bunny Ford, leader – Lovee Wolf

SMILES

A smile will cost you nothing, but it gives the world so much,
Enriching all your fellow men with whom you come in touch.
It will not make you poorer when you give away a smile;
It only takes a moment, yet will always keep in style.
The mem'ry of a smile lives on within a human heart.
I wonder if a thing we do can match its magic art.

No one on earth can be so great as not to need a smile,
And none so burdened but it helps him walk life's weary mile.
It brings a wealth of happiness to each and every home,
The countersign of friendship wherever man may roam.
It fosters what we call good will in business everywhere.
It is the cheapest, most creative thing that we can share.

It brings such peace to weary souls, such sunshine to the sad;
It cheers the sick, discouraged one, and keeps the cheerful glad.

MEDICAL CADET CREED

We'll walk in the steps of the Master of men,
The Doctor by blue Galilee.
We'll go and save others as Jesus did then,
When called over land or the sea.

We'll bind up the wounds of our friend or our foe,
We'll follow our guiding star.
We'll share the world's burden of sorrow and woe
While serving in peace or in war.

With malice toward none and with kindness for all,
We'll answer each cry of man's need,
Convinced that a need is a heavenly call;
And serving like Christ is our creed!

ACTIVITIES

Registration Day

At 7:00 a.m. on Sunday, September 10, anxious, eager but nervous students waited in line for Registration doors to open. With the help of faculty and willing students everyone was registered and ready for a new school year to begin.

Hodge Podge

Hodge Podge! Who ever heard of a Hodge Podge? One week from the first day, the beginning of our 1967-1968 school year, we had our traditional getting-aquainted party or what we call the Hodge Podge. Hodge Podge means a mixture of various ingredients. The various ingredients consisted of: freshmen, sophomores, juniors, seniors, games, food, a progressive hike, and a sing-along (etc.)

S. A. Picnic

Rain? Yes, it was raining; but that didn't stop A.U.A. from having the S.A. picnic at Pennelwood Resort. The seniors spirits were dampened least of all when they won the traditional football game against the school

Swimming, water skiing, tennis, shuffleboard, etc., was topped off with an Italian supper. All this added up to the pleasant memories of another school year.

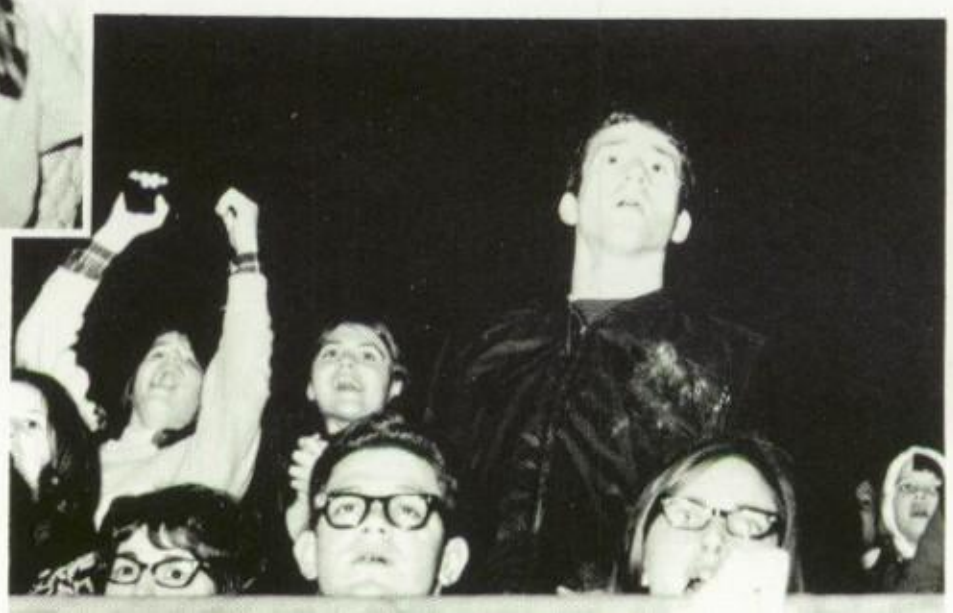
Alumni Weekend

This year A.U.A. had its first official alumni weekend. The Alumni Association presented several religious programs and a feature film Saturday night. However the main event was the A.U.A. Acumen vs. Alumni football game. Along with the game came much excitement and a real spirit of competition. Although the Acumen lost, they gave the Alumni a good fight. Better luck next year Acumen.



Even an alumnus can't help but get engrossed in this game. Right Stan?

"Build a better mouse trap and the world will beat a path to your door."

The inventor of the zany mouse trap above was perhaps trying too hard. You don't have to be "way out" to be "in."

In our own progressive way, we at Andrews University are "building better" to create dynamic, thought-stimulating education experiences for young people preparing for professional, technical, executive, and service careers.

Maybe you'd like to beat a path to our door. Write:
